

REMARKS/ARGUMENTS

This paper is submitted responsive to the Official Action mailed July 27, 2005. In the aforesaid Action, a double patenting rejection is entered based upon the parent application to the present application. While it is believed that a terminal disclaimer should not be necessary in this case, Applicant nevertheless encloses same herewith to expedite issuance of this patent.

In addition, two amendments have been made to the claims, specifically, to dependent claims 29 and 30. These amendments correct typographical errors only, and do not effect the scope of the claims. No new matter has been added.

Base upon the foregoing, it is respectfully submitted that the application is now in condition for allowance. Such early and favorable action is therefore respectfully solicited.

If any fees are required in connection with this case, it is respectfully requested that they be charged to Deposit Account No. 02-0184.
